

Friends of St. Francis
Childcare Center

“An individual has not started living until he/she can rise above the narrow confines of his/her individualistic concerns to the broader concern of all humanity.”

~Dr. Martin Luther King

Greetings, Team St. Francis!

We are very excited to be the co-facilitators of an interactive, engaging experience exploring the process of Building Responsive Relationships Through Respect, Mutual Understanding with Families and Co-Workers. Our time together will focus on concepts, skills, and strategies for child care providers that provide critical insights into the importance of holistic diversity, equity, and inclusion. Your sessions will include an AM and PM experience that will offer content, resources, instructional methodologies, and reflection on high-quality practices supporting diversity, equity, and inclusion for children's social justice. Each segment is unique and carefully crafted to provide participants with a series of dynamic learning experiences that combine ground-breaking literature, professional wisdom, reflective practice, small and large group engagement, and meaningful information to promote deeper professional development and practice. These instructional design methods will increase culturally responsive practices and engagement, protocols for disrupting implicit and explicit bias in caregiving routines and staff relations to improve pedagogy practices and increase

knowledge and comprehension in responsive care and wellness in the workplace.

In preparation for our time together, we invite you to visit our Friends of St, Francis section of our website and share your insight and input by interacting with the four questions we have provided at www.fullcircleconsultingsystems.com.

We look forward to our time with each of you on Zoom **on October 11, 2021, from 9:00 am to 12:00 pm and then from 3:00 pm to 4:30 pm. Please use the link below for both (AM and PM) sessions.**
